1825 PPP Projects in India across Varied Sectors awarded b/w 2014 till 2024

~2495 Investment in these PPP Projects from a period 2014 till 2024

Thousand INR Crores

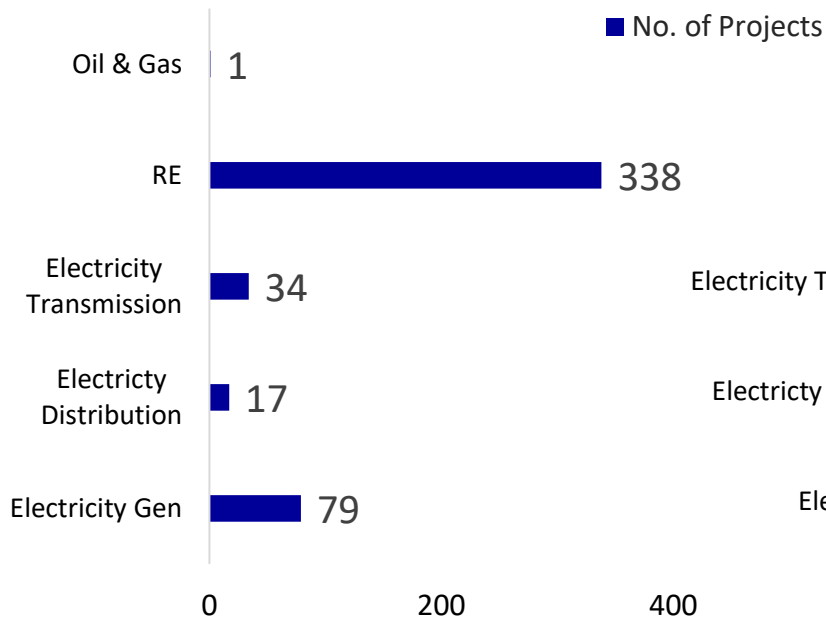

The Odisha government has notified a new Public Private Partnership (PPP) Policy, 2023 to attract private investment in the construction of public infrastructure. The new policy notified by the state Finance Department will be applicable to all infrastructure projects including roads, bridges, ports, railways, airports, irrigation, helipads, industrial parks, logistic hubs, water supply, power, tourism, sports, healthcare, education, and inland waterways implemented through the PPP route. The government has also made a provision for levying user fees to boost the commercial viability of the projects and the amenability of private sector participation, according to a notification. As per the policy, projects with capital expenditure up to Rs 10 crore will be approved by the director of the PPP Cell of the state government, provided that these projects do not require any assistance from the Odisha Infrastructure Development Fund (OIDF) or the state Viability Gap Funding (VGF).
