

SANCHI SOLAR CITY

Inauguration By Hon'ble Chief Minister,
Madhya Pradesh

Shri Shivraj Singh Chouhan

6th September, 2023

World Heritage Site Sanchi in Madhya Pradesh becomes India's first solar city

The inauguration ceremony was graced by the presence of Hon'ble CM Shivraj Singh Chouhan Ji. The entire solar project in Sanchi will reduce 14,324 tonnes CO₂ per year, calling for making bringing down the consumption of conventional energy to net zero -making it fully dependent on renewable energy. A 3 MW solar plant has already been built in Nagauri near Sanchi & another 5 MW is planned to be set up under this initiative at Gulgaon for agri use. As a green plus in Sanchi, energy-efficient devices, e-charging stations, solar street lights & solar water pumps for the civic body have been developed. Farmers will get help in setting up solar pumps, said the honorable CM. Every household will be provided with low-energy-consumption fans, bar lights & LEDs. Around 2000 students will be provided solar lights & street vendors will be given lanterns. All this equipment has already been procured under CSR funds. Energy equivalent to the total consumption of the town will be generated using sunlight & it will be supplied into the grid.

A MoU has been signed between the state department of renewable energy and IIT Kanpur to make Sanchi a net zero city

Dear Shri Ravi,

Government of India has targeted to create at least one solar city in each State, this city should fulfill all its energy requirements through solar energy. Sanchi in Madhya Pradesh is a UNESCO protected site that is now slated to be the **first solar city in the country** to be completely fulfilling its energy requirement through generation of solar energy.

2/ This involves deployment of ground mounted solar projects of MW scale, rooftop solars on individual households and Government premises, streetlights with battery storage, vertical axis micro wind turbine EV charging stations, eVehicles, water coolers etc. Two unique features of Sanchi solar city are:-

- Every person residing in Sanchi in the age group of 12 to 60 years have been trained and completed 12 modules under Urja Shaksharta Abhiyan (USHA) to make him/her aware of energy conservation, renewable energy usage etc.
- All investments to make Sanchi solar city has been achieved under prevailing schemes without any additional financial support.

These interventions will prevent 13700 tons of CO2 emissions every year. However, we are not satisfied by this achievement & we plan to make this city a 'Net Zero City' in coming years while taking care of all emissions in scope I, II & III activities.

3/ It is pleasure of Govt. of Madhya Pradesh to inform that Hon'ble CM is inaugurating the city on 6th September, 2023 and as you are one of the key stakeholders of growth and development in the State, I take this opportunity to formally invite you on this occasion. We shall be taking care of your logistics and stay while you are here.

A line of conformation along with your travel plan shall be appreciated.

with warm regards,

Yours Sincerely,

(Sanjay Dubey)

A photograph of the Hon'ble Chief Minister of Madhya Pradesh, Shri. Anandiben Reddy, speaking at a podium during an event in Sanchi. He is wearing a white shirt and glasses. The podium is decorated with a large arrangement of red anthuriums and purple flowers. To his left, another man in a dark blue shirt is standing. The background is decorated with large floral garlands in white, red, and pink. A portion of the Indian national flag is visible on the right side of the frame.

Hon'ble CM- Madhya Pradesh addressing the people of Sanchi about the solar city development plan & benefits

Seated L-R, Eninrac's Founder & Director Mr. Ravi Shekhar sharing stage at the event with industry stakeholders & senior dignitaries

Team Eninrac extends their sincere thanks & gratitude to Principal Secretary, Energy & New Renewable Energy, Madhya Pradesh - Shri Sanjay Dubey Ji for inviting our Director - Mr. Ravi Shekhar in the one of its kind launch event of marquee solar city - Sanchi

Mr. Sanjay Dubey

Principal Secretary, Energy & New
Renewable Energy, Madhya Pradesh

"It was an extreme pleasure to share the stage with the Hon'ble CM of Madhya Pradesh Shri Shivraj Singh Chouhan Ji, Hon'ble Public Health & Family Welfare Minister of Madhya Pradesh- Dr. Prabhuram Choudhary Ji , Hon'ble Principal Secretary, Energy & New Renewable Energy - Shri Sanjay Dubey Ji and other senior dignitaries"
